

TYMUR BOGACH

Full Stack Developer

✉ timurnator@gmail.com • [in/tymur-bogach](#) • [TimurTwerKing](#) • [nastymur.com](#) • [Orihuela, Alicante — Spain](#)

SUMMARY

Developer with an analytical mindset and lifelong technology enthusiast. After over a decade of precision-driven problem-solving in the automotive sector, I now apply that same meticulous attention to detail to software development. Proven experience delivering mobile and web applications (GesinFlot, nastymur.com) and managing custom self-hosted infrastructure. I actively integrate AI tooling (Claude Code, Ollama, MCP) into my development workflow to streamline processes. Looking to bring my analytical skills and adaptability to a strong engineering team.

PROFESSIONAL EXPERIENCE

Development Team
GesinFlot

Murcia, Spain
2025

- Developed Android mobile application using Android Studio and Java.
- Designed UI/UX flows and integrated REST APIs for fleet management features.
- Diagnosed and resolved bugs across the Android/Java stack; managed FTP/SFTP infrastructure for secure client file delivery.
- Built and signed APK releases for internal distribution.
- Acted as technical point of contact with clients for requirements gathering and ongoing project follow-up.

Senior Automotive Technician
Grupo Marcos — Body & Paint

Orihuela, Spain
2017 — 2024

- Full management of structural and aesthetic repair on multi-brand vehicles: surface prep, paint application, and high-precision finishing.
- Coordinated workshop workflows and quality control across a team of technicians.
- Developed precision-first habits and systematic problem-solving — methodologies now applied to the software development cycle.

Body & Paint Technician
Renault Trucks, La Basca & Multi-brand

Orihuela, Spain
2012 — 2017

- Body repair, painting, and structural assessment on commercial and multi-brand vehicles.
- Developed systematic diagnostic approach and first-principles fault isolation.

EDUCATION

Advanced Technical Certificate — Web Application Development
EFA El Campico

2023 — 2025

- Full-stack web: HTML, CSS, JavaScript, TypeScript, PHP, Java, SQL.
- Frameworks and tooling: Angular, Astro, Tailwind CSS, Laravel, Docker, Git.

Homelab & DevOps
Self-Hosted Production Environment

2022 — present

- Docker, Nginx, Linux, Raspberry Pi, TrueNAS, Tailscale, Cloudflare.
- Maintaining a personal platform with 25+ live services and projects — local LLM inference (Ollama), media servers, networking, and monitoring.

Technical Certificate — Automotive Body & Paint
IES El Palmeral

2008 — 2010

Language Proficiency
Languages

- Russian — Native
- Ukrainian — Native
- Spanish — Fluent
- English — Intermediate (Technical)
