

TYMUR BOGACH

Full Stack Developer

tymbogach@gmail.com • in/tymur-bogach • tymbogach • nastymur.com • Orihuela, Alicante — Spain

SUMMARY

Developer with an analytical mindset and a lifelong passion for technology. After over a decade of precision-driven problem-solving in the automotive sector, I now apply that same meticulous attention to detail to software development. Demonstrated experience delivering mobile and web applications and managing self-hosted infrastructure. I actively integrate AI tooling into my development workflow to streamline processes. Looking to bring my analytical skills and adaptability to a strong engineering team.

EXPERIENCE & PROJECTS

Development Team Murcia, Spain
GesinFlot by TDI 2025

- Developed a production Android application using Android Studio and Java.
- Designed UI/UX flows and integrated REST APIs for fleet management features.
- Diagnosed and resolved bugs across the Android/Java stack; managed FTP/SFTP infrastructure for secure client file delivery.
- Built and signed APK releases for internal distribution.
- Acted as technical point of contact with clients for requirements gathering and ongoing project follow-up.

Personal project • DevOps / SysAdmin Remote
Personal Infrastructure (Homelab) 2022 – present

- Bare-metal server administration with TrueNAS SCALE and ZFS — tiered storage pools: NVMe/SSD for services and databases, HDD for backups.
- Deploy and maintain 40+ containerized services across 8 Docker stacks (NAS + Raspberry Pi).
- End-to-end automated media pipeline: REST API intercommunication, Custom Formats/regex quality rules, automated acquisition, post-processing, and iGPU-accelerated streaming.
- Self-hosted AI services: local LLM inference API consumed by a custom portfolio chat widget; ML-powered photo management with vector-based similarity search.
- Secure external access via Cloudflared tunnels and Tailscale VPN mesh; VPN traffic routing; reverse proxy, domain management, automated updates, and monitoring.

Senior Body & Paint Technician Vega Baja, Spain
Centrochapa (Grupo Marcos) • Renault Trucks • Talleres La Basca 2012 – 2024

- Independently managed the full collision repair cycle on multi-brand vehicles — from structural assessment to final delivery: bench straightening, MIG/MAG welding, panel replacement, seam sealing, paint, clear coat, and polishing.
- Heavy-duty industrial bodywork on commercial trucks and refrigerated trailers: structural welding, riveting, and technical sealing for pressure integrity.

EDUCATION

Advanced Technical Certificate — Web Application Development 2023 – 2025
EFA El Campico

- Full-stack web: HTML, CSS, JavaScript, TypeScript, PHP, Java, SQL.
- Frameworks and tooling: Angular, Astro, Tailwind, Laravel, Docker, Git, Postman.

Certifications 2024 – 2026
Global Knowledge • Founderz • Formación Magna

- Certified Scrum Developer
- Introduction to AI and Prompt Engineering
- Occupational Risk Prevention — Basic Level, incl. metal sector (Spain, RD 39/1997)

Technical Certificate — Automotive Body & Paint 2008 – 2010
IES El Palmeral

Language Proficiency
Languages

- Russian — Native
- Ukrainian — Native
- Spanish — Fluent
- English — self-assessed B2 speaking; stronger technical comprehension
